Career Objective:

A passionate MERN stack developer with hands-on experience in building responsive web applications using React.js, MongoDB, Node.js, Express.js, and Tailwind CSS. I aim to work in a challenging environment that helps me grow as a professional.

Technical Skills:

Languages & Technologies: HTML, CSS, JavaScript, C++, React.js, Node.js, MongoDB, Express.js, Firebase, Git.
Frameworks/Libraries: Tailwind CSS, DaisyUI, Axios.
Tools: VS Code, GitHub, Netlify, Vercel.
Interpersonal Skills: Communication, Teamwork, Problem-solving.

Projects:

1.Servico

Overview: A full-stack Service Review Application where users can add, view, and manage services and reviews. Includes authentication, JWT protection, review system, and search/filter features.
  Live | GitHub Client | GitHub Server
Key Features:1.Dynamic review and rating system,2.Add and edit reviews (one per user per service),3.Reviews stored and managed via MongoDB,4.JWT-based route protection (PATCH, POST, DELETE) and Axios interceptors for secure token handling.

2.HobbyHub

Overview: A web platform where users can discover, join, or create hobby-focused groups like photography, painting, coding, etc.
  Live | GitHub Client | GitHub Server
Key Features: 1.Create & Join Interest Groups,2.Animated feedback section using Typewriter and AOS,3.Responsive design using Tailwind CSS and DaisyUI,4.Conditional access for inactive/past-dated groups.
